Marp 2022 [New]

The idea behind Marp is simple: it is a tool that allows you to quickly edit and convert text to HTML. It does not come with a bunch of fancy features, but it is very solid and reliable. Marp is a Markdown editor, a lightweight text editor for Markdown and other plain-text-based formatting languages. It was originally created for writing Markdown, but it also works for writing other plain text formats, such as those used by AsciiDoc and Textile. It can also export your documents to both PDF and HTML. Marp's rich features allow it to easily convert text formats to HTML, HTML to XML, XML to plain text, PDF to HTML or HTML to PDF. Marp highlights, strikethroughs, underlines, and italics are converted into HTML on save. It also supports CSS text styling and conversion, Unicode, and line numbering. It can load and save templates as well as create custom stylesheets. Marp lets you convert pages into a single or multiple presentation file in various formats: HTML, PDF, DocBook, SXS, Excel, Docx, ODT, RTF, HTML-email, plain text, Markdown, Emoji (pics, codes), GIF, and PNG. Marp makes it simple to create and convert multilingual text documents, with language support for the following languages: English, German, French, Italian, Spanish, Polish, Russian, Portuguese, Hindi, Korean, Traditional Chinese, Simplified Chinese, Korean, Japanese, Greek, Malay, and Bahasa Indonesia.
